AX 650W
CORSAIR

The Corsair Professional Series Gold power supply pushes the state of the art for reliable delivery of clean power under imperfect conditions. If you require mission-critical stability or you simply want one of the best power supplies available, the Professional Series Gold is for you.

All cables detach from the power supply. During installation, this gives you the flexibility of using only the cables you need for a clean system build with optimal airflow. And, when it's time to replace or upgrade your power supply, it can be removed from your system without interfering with your cabling ." the cables stay in place and connect to your new fully-modular Corsair power supply.

With 90% efficiency at 50% load, the Corsair Professional Series Gold power supply runs quieter, generates minimal excess heat, and saves you money every month. It's earned the 80 Plus Gold seal of approval, your guarantee that you're making the right choice for smart, efficient power delivery.

Features

- Max. Output Power: 650W
- ATX 12V v2.3
- Active PFC
- Rails +12V : 1
- Fan: 120mm
- Cable Management: Yes
- MTBF : More than 100 000 hours at 25°C
- Dimensions : 150 x 86 x 160mm
- Warranty: 7 years

Connectors

- 1 x ATX 20/24 Pin
- 1 x EPS
- 4 x PCIe
- 8 x SATA
- 2 x Floppy
- 4 x MOLEX

Protection

- OVP: Over Voltage Protection
- OCP: Over Current Protection
- OPP: Over Power Protection

Safety

- UL, CUL, CE, CB, FCC Class B, TÜV, CCC, C-tick

Reference

- CP9020006EU

Barcode

- 843591013550

Corsair has been a leader in the design and manufacture of high-speed modules since 1994. Corsair focus has always been on supporting the special demands of mission-critical servers and high-end workstations, as well as the performance demands of extreme gamers.
